

Meeting 2: 18-feb

Discussed: - Classes: food, transport and energy

- use Trello
- issue in git lab
- tasks split

simple server is sufficient

everything need to be tested

Q&A:

CI: run tests, add check style, test coverage

-great readme: things should be included in readme \*its okay if we have it by the end of the project

template for agenda: free to use

Tips:

- notes and agendas put on git
- no specific format for note taking
- screenshot for check style

Next meeting:

- the demo should be done by the next meeting
- best to book a project room for the meeting
