

Notes

Report feedback:

- Good in general
- Problems that were seen in the last weeks was not seen
- What we learnt from problems and what we would do differently
- Don't worry about stakeholders
- Write how u managed customer privacy (improve responsible computer science)

About presentation:

- Main questions will be based on process, why we chose certain frameworks, how client connects to server etc. mostly questions asked for report
- Explain the process
- You can redirect questions if you did not work on a certain part.
- Prove why you deserve a high grade

General notes:

- Try to make achievements based on increasing co2
- Badges
- Resolve code reviews before merging
- Make it possible to remove a friend
- CSS improve the design

For more points:

- All the features
- Check style errors less than 5
- Great read me
- Ace presentation and Q&A

Planning:

Denys & Marvin – Badges feature

Nathan – remove friends, checkstyle,

Justin – CSS

Rohan – add co2 values, edit report,

Paul – problem with running project on new device, presentation
